Environmental and Sustainability Policy

At Bamham Farm Cottages we are committed to working in a sustainable way.

We are undertaking the following actions in order to achieve this:

1. We comply with the requirements of environmental legislation and approved codes of practice
2. We continuously seek to improve our environmental and social performance
3. We reduce pollution, emissions and waste
4. We reduce the use of energy, water and other resources
5. We raise awareness, encourage participation and train employees in sustainable business practices
6. We discuss their environmental standards with all suppliers and contractors
7. We assist our guests to use products and services in a environmentally sensitive and sustainable way
8. We will not compromise on the comfort of our guests along this journey
9. We will always seek opportunities to provide more facilities and services for our guests whilst making holidays with us greener.
10. We have joined the Green Tourism Business Scheme as an indicator of our sustainable practices

We would like to ask you to help us – the welcome folder in your cottage contains many suggestions of what you can do to be a greener visitor and to enjoy your holiday even more.

We thank you for your support and help in achieving these aims and would like to ensure that you can go home after your holiday knowing that you have contributed to the preservation of the local environment in Cornwall whilst still maximising your holiday experience.

Responsible visitor charter

Be a responsible visitor: seven things you can do to help save the planet

1. Conserve energy – Reduce energy usage by switching off the lights and closing windows if the heating is on.
2. Give the car a rest – Leave the car behind, if only for a day. Walk, cycle or use public transport.
3. Shop local – Use local products, they give you a flavour for the area and help support local communities. We are fortunate to have some fantastic producers of food, drink, and arts and crafts in Cornwall. More information about local shops and markets can be found in the welcome folder in your cottage.
4. Reduce, reuse, recycle – try to avoid overly packaged goods and say no to that extra carrier bag. Try and recycle any waste you have.
5. Be water wise – Please use water wisely. Turn off the tap when brushing your teeth and help us reduce laundry with our towel and bed linen cards.
6. Respect nature – help us look after the landscape and wildlife by not littering, guarding against fire and using footpaths and cycle-ways responsibly.
7. Support Green Tourism Businesses – There are hundreds of businesses trying to reduce their environmental impacts through the Green Tourism Business Scheme. See www.green-business.co.uk for more information.

And most importantly, have a great time when you are here, we'd like you to come back.
